Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ABDEL-WAHAB, E. M., ADJUTANTIS, G. & LAURENCE, D. J. R. Borate buffer as a medium for the ionophoresis of human serum proteins xiii

ABDEL-WAHAB, E. M. & LAURENCE, D. J. R. Some quantitative aspects of the evaluation of plasma proteins following paper electrophoresis xxxv

ABOOD, L. G. & ROMANCHEK, L. Inhibition of oxidative phosphorylation in brain mitochondria by electrical currents and the effect of chelating agents and other substances 233

ADAMS, D. H. Liver catalase in the riboflavin-deficient mouse 568

ADJUTANTIS, G. *see* ABDEL-WAHAB, E. M. xiii

ALBANS, J. W. *see* WHITMARSH, J. M. xxviii

ALEXANDER, P. & STACEY, K. A. Evidence from light-scattering studies for a dimeric structure for deoxyribonucleic acid in solution 194

ANDERSON, A. J., LOCKEY, E. & MACLAGAN, N. F. Some biological properties of the urinary mucoproteins xli

ANNISON, E. F., HILL, K. J. & LEWIS, D. Portal blood analysis in the study of the absorption of ruminal fermentation products xix

APPELMANS, F. *see* DUVE, C. DE 604

APPLEBY, J. I., GIBSON, G., NORYMBERSKI, J. K. & STUBBS, R. D. Indirect analysis of corticosteroids. 1. The determination of 17-hydroxycorticosteroids 453

APPLEBY, J. I. & NORYMBERSKI, J. K. Indirect analysis of corticosteroids. 2. The determination and identification of urinary 17-hydroxy-20-oxosteroids unsubstituted at $C_{(21)}$ 460

ARNSTEIN, H. R. V. Biosynthesis of glycine and serine in normal and folic acid-deficient rats vii

ARNSTEIN, H. R. V. & CLUBB, M. E. The utilization of valine for penicillin biosynthesis xxxiv

ASKONAS, B. A. & HUMPHREY, J. H. Antibody formation in slices of granulomata produced by adjuvant x

AVIGAN, J., QUASTEL, J. H. & SCHOLEFIELD, P. G. Studies of fatty acid oxidation. 3. The effects of acyl-CoA complexes on fatty acid oxidation 329

BAILEY, J. LEGGETT. Systematic degradation of peptides from the carboxyl end 173

BAILEY, J. LEGGETT. The reduction of esters of simple peptides by metal hydrides 170

BALMAIN, J. H. *see* MCNAUGHT, M. L. 102

BARSKY, J. *see* ZELLER, E. A. v

BASSIR, O. & HALL, J. Photo-activation as a factor in the cephalin cholesterol reaction xx

BHATTACHARYA, S. K., ROBSON, J. S. & STEWART, C. P. The determination of glutathione in blood and tissues 696

BIRD, R. & CONSDEN, R. Observations on the non-collagen constituents of connective tissue ix

BIRKINSHAW, J. H. & CHAPLEN, P. Biochemistry of the wood-rotting fungi. 8. Volatile metabolic products of *Daedalea juniperina* Murr. 255

BLASCHKO, H. & HIMMS, J. M. The enzymic hydrolysis of α-cocaine xxxix

BOOTH, J., BOYLAND, E. & MANSON, D. Metabolism of polycyclic compounds. 9. Metabolism of 2-naphthylamine in rat tissue slices 62

BOSCOTT, R. J. & KIRMAN, B. H. Urinary phenolic acid excretion in phenylketonuria iv

BOULTER, D. The oxidases of *Polystictus versicolor* and *Neurospora crassa* in relation to their endogenous respiration xxi

BOYLAND, E. & MANSON, D. The metabolites of 2-naphthylamine produced by rats and rabbits ii

BOYLAND, E. & WILLIAMS, D. C. The estimation of tryptophan metabolites in the urine of patients with cancer of the bladder v

BOYLAND, E. *see also* BOOTH, J. 62

BRAY, H. G., CRADDOCK, V. M. & THORPE, W. V. Metabolism of ethers in the rabbit. 2. Nuclear-substituted anisoles 225

BRAY, H. G., JAMES, S. P. & THORPE, W. V. The metabolism of 3:4-dichloronitrobenzene in the rabbit with special reference to the formation of mercapturic acids xxiii

BREEN, J., DACRE, J. C., RAISTRICK, H. & SMITH, G. Studies in the biochemistry of micro-organisms. 95. Rugulosin, a crystalline colouring matter of *Penicillium rugulosum* Thom 618

BRONK, J. R. & FISHER, R. B. The role of ornithine and citrulline in urea synthesis xxix

BROWN, H., SANGER, F. & KITAI, R. The structure of pig and sheep insulins 556

BROWN, J. B. A chemical method for the determination of oestriol, oestrone and oestradiol in human urine 185

BRÜCKNER, J. Estimation of monosaccharides by the orcinol–sulphuric acid reaction 200

CAIN, J. C. & MORTON, R. A. Some minor constituents of liver oils 274

CALDWELL, P. C. The location of substances on paper chromatograms by differential charring and the use of an *n*-propanol–water solvent containing an acetic acid–sodium acetate buffer for the chromatography of phosphate esters xii

CARTWRIGHT, N. J. Serratamic acid, a derivative of L-serine produced by organisms of the *Serratia* group 238

CASIDA, J. E. Comparative enzymology of certain insect acetylesterases in relation to poisoning by organophosphorus insecticides 487

CECIL, R. & MCPHEE, J. R. A kinetic study of the reactions of some disulphides with sodium sulphite 496

CHANDA, R., CLAPHAM, H. M. & OWEN, E. C. The effects of deprivation of carotene and anterior pituitary hormone on the partition of vitamin A in the blood and milk of the cow 391

CHAPLEN, P. *see* BIRKINSHAW, J. H. 255

CHICHESTER, C. O. *see* MACKINNEY, G. xxxvii

CLAPHAM, H. M. *see* CHANDA, R. 391

CLARK, S. G. *see* HOLT, P. F. xxx

CLUBB, M. E. *see* ARNSTEIN, H. R. V. xxxiv

CONSDEN, R. *see* BIRD, R. ix

CRADDOCK, V. M. *see* BRAY, H. G. 225

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Absorption spectra of monosaccharides heated with orcinol–sulphuric acid (Brückner, J.) 200
Acetate, synthesis of fatty acids from, by soluble enzyme system from rat mammary gland (Popják, G. & Tietz, A.) 147
Acetobacter acetosum, isolation of calcium salts of 2-keto-D-gluconic acid from cultures of (Hall, A. N., Kulka, D. & Walker, T. K.) 271
Acetylesterases, insect, comparative enzymology of in relation to poisoning by organophosphorus insecticides (Casida, J. E.) 487
Acid phosphatase, intracellular distribution of in liver (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Acids, amino *see* Amino acids
Acids, fatty *see* Fatty acids
Acrylic acid, fermentation of by a Gram-negative coccus (Lewis, D. & Elsden, S. R.) 683
Adenosinetriphosphate-guanidyl phosphokinases in Annelid worms (Hobson, G. E.) viii
Adjuvant, antibody formation in slices of granulomata produced by (Askonas, B. A. & Humphrey, J. H.) x
Adrenal corticoids, effects of on fatty acid synthesis in mammary gland slices *in vitro* (McNaught, M. L., Glascock, R. F., Balmain, J. H. & Folley, S. J.) 102
Alcaligenes metalcaligenes, functional groupings of arylsulphatase of (Dodgson, K. S., Spencer, B. & Williams, K.) xxv
Ali-esterase in rat and dog plasma (Overbeek, G. A. & Vies, J. van der) 665
Ali-esterases, studies on (Myers, D. K., Schotte, A. & Mendel, B.) 481
Alkaloids, Senecio, blood changes in rats treated with (Schoental, R.) i
Alumina, effect of exposure of human red blood cells to (Lovelock, J. E.) 692
Amine oxidases, structural requirements for inhibition of (Zeller, E. A., Barsky, J., Fouts, J. R. & Lazanas, J. C.) v
Amino acid, a new free, in cabbage (Synge, R. L. M. & Wood, J. C.) xv
Amino acid sequence in lysozyme (Thompson, A. R.) 507
Amino acids, free, of fish (Jones, N. R.) 81
Amino acids, labelled, incorporation of into antibody and other serum globulins *in vivo* (Humphrey, J. H. & McFarlane, A. S.) xi
Amino acids of urine (Westall, R. G.) 247
Ampholytes of urine (Westall, R. G.) 247
Anisoles, nuclear-substituted, metabolism of in rabbit (Bray, H. G., Craddock, V. M. & Thorpe, W. V.) 225
Annelid worms, adenosinetriphosphate-guanidyl phosphokinases in (Hobson, G. E.) viii
Anserinase, skeletal muscle, of codling, 1-methylhistidine and β-alanine liberation by (Jones, N. R.) 81
Antibody formation in slices of granulomata produced by adjuvant (Askonas, B. A. & Humphrey, J. H.) x
Antibody gloulin, incorporation of labelled amino acids into *in vivo* (Humphrey, J. H. & McFarlane, A. S.) xi
Antibody labelling with ^{131}I and ^{35}S (Francis, G. E., Mulligan, W. & Wormall, A.) 363
Antigen of *Shigella dysenteriae*, specific polysaccharide of dominant 'O' somatic (Davies, D. A. L., Morgan, W. T. J. & Record, B. R.) 290
Antigens containing multiple determinant groups, reactions of antisera to (Francis, G. E., Mulligan, W. & Wormall, A). 370
Antigens, protein, containing both iodine and mustard gas sulphone groups (Francis, G. E., Mulligan, W. & Wormall, A.) 118
Antimycin A, inhibition of succinic oxidase by (Thorn, M. B.) xxxvi
Antisera, reactions of to antigens containing multiple determinant groups (Francis, G. E., Mulligan, W. & Wormall, A.) 370
Arabinose, formation of from 2-keto-D-gluconic acid (Hall, A. N., Kulka, D. & Walker, T. K.) 271
Arylsulphatase of *Alcaligenes metalcaligenes*, functional groupings of (Dodgson, K. S., Spencer, B. & Williams, K.) xxv
Arylsulphates, biosynthetic, isolation and characterization of (Dodgson, K. S., Rose, F. A. & Spencer, B.) 346
Ascaris lumbricoides from pig, carbohydrate metabolism in (Rathbone, L.) xi
Aspergillus terreus, mechanism of itaconic acid formation by (Eimhjellen, K. E. & Larsen, H.) 139; (Larsen, H. & Eimhjellen, K. E.) 135
Atherosclerotic aortas, human, cholesta-3:5-dien-7-one in (Kantiengar, N. L. & Morton, R. A.) 25
Atrophy of rat limb, metabolism of sulphated polysaccharides in (Slack, H. G. B.) 112

Bacillus subtilis, threonine–isoleucine relationship in (Sewell, C. E. & King, H. K.) xxi
Bile acid, unsaturated, in chicken (Wiggins, H. S.) ix
Biotin metabolism in rat (Dalgliesh, C. E.) xxiii
Bligkia sapida, two biologically active polypeptides, hypoglycin A and B, from (Hassall, C. H. & Reyle, K.) 334
Blood cells, physical instability of human red (Lovelock, J. E.) 692
Blood changes in rats treated with Senecio alkaloids (Schoental, R.) i
Blood, determination of glutathione in (Bhattacharya, S. K., Robson, J. S. & Stewart, C. P.) 696
Blood, portal, analysis in study of absorption of ruminal fermentation products (Annison, E. F., Hill, K. J. & Lewis, D.) xix
Blood-group active mucoids, fractionation, properties and composition of (Gibbons, R. A., Morgan, W. T. J. & Gibbons, M.) 428
Body fluids, micro-determination of bromide in (Hunter, G.) 261
Bone, calcium exchange in (Dawson, K. B.) 389
Bone minerals, effect of calcium depletion on chemical composition of (Taylor, T. G. & Moore, J. H.) xxvi
Bones, micro-estimation of porphyrins in (With, T. K.) 703
Borate buffer as medium for ionophoresis of human serum proteins (Abdel-Wahab, E. M., Adjutantis, G. & Laurence, D. J. R.) xiii
Boundary spreading in migration of a solute in rapid dissociation equilibrium (Field, E. O. & Ogston, A. G.) 661
Brain mitochondria, inhibition of oxidative phosphorylation in by electrical currents, and effect of chelating agents (Abood, L. G. & Romanchek, L.) 233
Brain, potassium loss from, induced by cholinesterase inhibitors (Strickland, K. P. & Thompson, R. H. S.) 468

Bromide in body fluids, micro-determination of (Hunter, G.) 261
Butyric acid, inhibition of acetoacetate synthesis by (Avigan, J., Quastel, J. H. & Scholefield, P. G.) 329

Cabbage, new free amino acid in (Synge, R. L. M. & Wood, J. C.) xv
Cacao polyphenols, separation and estimation of on paper chromatograms (Forsyth, W. G. C.) 108
Calcium depletion, effect of on chemical composition of bone minerals (Taylor, T. G. & Moore, J. H) xxvi
Calcium exchange in bone (Dawson, K. B.) 389
Carbohydrate metabolism in *Ascaris lumbricoides* from pig (Rathbone, L.) xi
Carbon, radioactive, simple technique for counting milligram samples of protein labelled with (Garrow, J. & Piper, E. A.) 527
Carbonate, retention of metabolic radioactive (Steele, R.) 447
Carboxylic acids in biosynthesis of β-carotene by *Phycomyces blakesleeanus* (Friend, J., Goodwin, T. W. & Griffiths, L. A.) 649
β-Carotene, biosynthesis of by *Phycomyces blakesleeanus*, role of carboxylic acids in (Friend, J., Goodwin, T. W. & Griffiths, L. A.) 649
Carotene, effects of deprivation of on partition of vitamin A in blood and milk of cow (Chanda, R., Clapham, H. M. & Owen, E. C.) 391
β-Carotene in *Phycomyces blakesleeanus*, incorporation of glycine carbon into (Mackinney, G., Chichester, C. O. & Nakayama, T.) xxxvii
Carotenogenesis, studies in (Friend, J., Goodwin, T. W. & Griffiths, L. A.) 649
Carotenoids, metabolism of in rat (Painter, R. H. & Glover, J.) xvi
Carotenoids of *Chlorobium* spp. (Goodwin, T. W. & Land, D. G.) xvii
Catalase as catalyst of coupled peroxidatic reactions (Keilin, D. & Hartree, E. F.) 310
Catalase, liver, in riboflavin-deficient mouse (Adams, D. H.) 568
(−)-*epi*Catechin in cacao bean (Forsyth, W. G. C.) 108
Cation-exchange resins, sulphonated, use of for hydrolysis of ovomucoid (Dixon, A. St J.) 165
Cell particles, fractionating, 'spectral' centrifuge for (Philpot, J. St L. & Stock, D. A.) xlii
Centrifuge, 'spectral', for fractionating cell particles (Philpot, J. St L. & Stock, D. A.) xlii
Cephalin cholesterol reaction, photo-activation as factor in (Bassir, O. & Hall, J.) xx
Cerebral slices, effect of elctrical pulses on distribution of radioactive phosphorus in (Heald, P. J.) xxxi
Cerebral tissues, electrically excited, transitory rapid production of lactic acid in (McIlwain, H.) xxxi
Cerebrospinal fluid protein fraction not detectable in serum (Press, E. M.) xxvi
Chicken, unsaturated bile acid in (Wiggins, H. S.) ix
Chlorobium spp., carotenoids of (Goodwin, T. W. & Land, D. G.) xvii
Chlorobium thiosulphatophilum, cytochromes from (Gibson, J. & Larsen, H.) xxvii
Cholesta-3:5-dien-7-one, administration of to rats (Kantiengar, N. L. & Morton, R. A.) 30
Cholesta-3:5-dien-7-one administration to cockerels, effects of (Kantiengar, N. L., Lowe, J. S., Morton, R. A. & Pitt, G. A. J.) 34
Cholesta-3:5-dien-7-one, formation of in rats (Kantiengar, N. L. & Morton, R. A.) 28
Cholesta-3:5-dien-7-one in human atherosclerotic aortas (Kantiengar, N. L. & Morton, R. A.) 25
Cholesterol administration to cockerels, effects of (Kantiengar, N. L., Lowe, J. S., Morton, R. A. & Pitt, G. A. J.) 34
Choline dehydrogenase, soluble, preparation and partial purification of from liver mitochondria (Ebisuzaki, K. & Williams, J. N. jun.) 644
Cholinesterase activity in rat after inhibition by organophosphorus compounds (Davison, A. N.) 339
Cholinesterase, comparative study of true and pseudo (Davison, A. N.) 339
Cholinesterase inhibitors, potassium loss from brain induced by (Strickland, K. P. & Thompson, R. H. S.) 468
Chromatograms, paper, location of substances on by differential charring (Caldwell, P. C.) xii
Chromatograms, paper, separation and estimation of cacao polyphenols on (Forsyth, W. G. C.) 108
Chromatography, paper, fractionation of phosphates by (Wade, H. E. & Morgan, D. M.) 264
Citric acid in mammary gland, metabolism of (Terner, C.) 88, 95
Citric acid, modified method for microdetermination of (McArdle, B.) 647
Citrulline in urea synthesis (Bronk, J. R. & Fisher, R. B.) xxix
Clearing factor and lipase (Overbeek, G. A. & Vies, J. van der) 665
Clearing factor of post-heparin plasma (Myers, D. K., Schotte, A. & Mendel, B.) 481
Clostridium tetanomorphum, pathway of glutamic acid fermentation by (Fry, B. A.) vi
Clostridium welchii, transaminase activity in (Hicks, R. M.) iii
Coagulase, liberation of by *Staphylococcus aureus* (Rogers, H. J. & Spensley, P. C.) 635
α-Cocaine, enzymic hydrolysis of (Blaschko, H. & Himms, J. M.) xxxix
Codling, 1-methylhistidine and β-alanine liberation by skeletal muscle anserinase of (Jones, N. R.) 81
Coenzyme A dependent reactions in soluble enzyme system of mammary gland (Tietz, A. & Popják, G.) 155
Collagen and gelatin monolayers and silicic acid, interaction of (Holt, P. F. & Clark, S. G.) xxx
Complexes, acyl-CoA, effects of on fatty acid oxidation (Avigan, J., Quastel, J. H. & Scholefield, P. G.) 329
Copper, effect of on dissociation of haemoglobin (Field, E. O. & O'Brien, J. R. P.) 656
Corticoids, adrenal, effects of on fatty acid synthesis in mammary gland slices *in vitro* (McNaught, M. L., Glascock, R. F., Balmain, J. H. & Folley, S. J.) 102
Corticosteroids, indirect analysis of (Appleby, J. I., Gibson, G., Norymberski, J. K. & Stubbs, R. D.) 453; (Appleby, J. I. & Norymberski, J. K.) 460
o-Coumaric acid, cyclization of *in vivo* (Mead, J. A. R., Smith, J. N. & Williams, R. T.) xv
Coumarin, hydroxylation of, *in vivo* (Mead, J. A. R., Smith, J. N. & Williams, R. T.) xv
Cow, effects of deprivation of carotene and anterior pituitary hormone on partition of vitamin A in blood and milk of (Chanda, R., Clapham, H. M. & Owen, E. C.) 391
p-Cresol, microbial oxidation of (Dagley, S. & Patel, M. D.) xxxv
Cryoglobulinaemia (Hemsted, E. H., Ingarfill, E. W. & Tárnoky, A. L.) xxx
L-Cysteine, fermentation of by a Gram-negative coccus (Lewis, D. & Elsden, S. R. 683
Cystine, diacetyl and diformyl esters of cystine; kinetics of reactions of with sodium sulphite (Cecil, R. & McPhee, J. R.) 496
Cystine, ionophoretic behaviour of peptides of (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Cystine linkages, reduction and modification of in wool 626

Cytochrome oxidase, intracellular distribution of in liver (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Cytochromes from *Chlorobium thiosulphatophilum* (Gibson, J. & Larsen, H.) xxvii

Daedalea juniperina Murr., volatile metabolic products of (Birkinshaw, J. H. & Chaplen, P.) 255
Deoxyribonucleic acid, incorporation of radioactive phosphorus into (Smellie, R. M. S., Humphrey, G. F., Kay, E. R. M. & Davidson, J. N.) 177
Deoxyribonucleic acid, light-scattering studies for dimeric structure for, in solution (Alexander, P. & Stacey, K. A.) 194
Deoxyribonucleic acid, presence of in tobacco mosaic virus preparations (Holden, M. & Pirie, N. W.) 46
Deoxyribonucleic acids, microbial, occurrence of 6-methylaminopurine in (Dunn, D. B. & Smith, J. D.) xvii
Detergents, effect of on lipase action (Wills, E. D.) 529
Detoxication, comparative (Smith, J. N.) 436
Detoxication, studies in (Smith, J. N. & Williams, R. T.) 284
αε-Diaminopimelic acid, optical configuration of naturally occurring forms of (Hoare, D. S. & Work, E.) ii
3:4-Dichloronitrobenzene, metabolism of in rabbit (Bray, H. G., James, S. P. & Thorpe, W. V.) xxiii
Diethyl ether, use of systems containing, for separation and purification of human fibrinogen (Kekwick, R. A., Mackay, M. E., Nance, M. H. & Record, B. R.) 671
2:4-Dihydroxyquinoline, metabolism of in rabbit (Smith, J. N. & Williams, R. T.) 284
Diphosphopyridine nucleotide, effect of on metabolism of progesterone (Taylor, W.) 380
Diphosphopyridine nucleotide, reduction of by sodium dithionite (Swallow, A. J.) 443
Disulphide bond, interchange reactions of (Ryle, A. P. & Sanger, F.) 535
Disulphide bonds of insulin (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Disulphides, kinetic study of reactions of with sodium sulphite (Cecil, R. & McPhee, J. R.) 496
ββ-Dithiodipropionic acid, kinetics of reactions of with sodium sulphite (Cecil, R. & McPhee, J. R.) 496

Electrophoresis, application to of theory of boundary spreading in a rapidly dissociating system (Field, E. O. & Ogston, A. G.) 661
Electrophoresis, paper, as quantitative method: serum proteins (Jencks, W. P., Jetton, M. R. & Durrum, E. L. 205
Electrophoresis, paper, of protein extracted at low ionic strength from fish skeletal muscle (Nikkilä, O. E. & Linko, R. R.) 242
Electrophoresis, paper, quantitative aspects of evaluation of plasma proteins following (Abdel-Wahab, E. M. & Laurence, D. J. R.) xxxv
Ergocalciferol, ^{14}C-labelled, biosynthesis of (Kodicek, E.) xxv
Esterases, insect acetyl, comparative enzymology of in relation to poisoning by organophosphorus insecticides (Casida, J. E.) 487
Esterases, plasma, effect of heparin injection on (Myers, D. K., Schotte, A. & Mendel, B.) 481
Ethers, metabolism of in rabbit (Bray, H. G., Craddock, V. M. & Thorpe, W. V.) 225
2-Ethoxycarbonylthio-1-methylglyoxaline, analysis of (Searle, C. E.) xxiv
Ethylenediaminetetra-acetic acid, influence of on excretion of ^{65}Zn by rat (Millar, J. M., Fischer, M. I., Mawson, C. A. & Elcoate, P. V.) xxxviii

Fatty acid oxidation, studies of (Avigan, J., Quastel, J. H. & Scholefield, P. G.) 329
Fatty acid synthesis in mammary gland slices *in vitro*, effects of adrenal corticoids on (McNaught, M. L., Glascock, R. F., Balmain, J. H. & Folley, S. J.) 102
Fatty acid synthesis in soluble enzyme preparations (Hele, P. & Popják, G.) xxxii
Fatty acids, biosynthesis of in cell-free preparations (Popják, G. & Tietz, A.) 147; (Tietz, A. & Popják, G.) 155
Fatty acids, free non-volatile, determination of (Vies, J. van der) 671
Fatty acids in human plasma, effect of a fat meal on concentration of free (Robinson, D. S., Harris, P. M., Poole, J. C. F. & Jeffries, G. H.) xxxvii
Fatty acids of Indian snake oils (Karkhanis, Y. D. & Magar, N. G.) 565
Fatty acids, synthesis of from acetate by soluble enzyme system from rat mammary gland (Popják, G. & Tietz, A.) 147
Fermentation, glutamic acid, pathway of by *Clostridium tetanomorphum* (Fry, B. A.) vi
Fermentation products, ruminal, portal blood analysis in absorption of (Annison, E. F., Hill, K. J. & Lewis, D.) xix
Fermentation, ruminal, of pentosan (Howard, B. H.) i
Fibrinogen, purification of human (Kekwick, R. A., Mackay, M. E., Nance, M. H. & Record, B. R.) 671
Fish, free amino acids of (Jones, N. R.) 81
Fish skeletal muscle, paper-electrophoretic analysis of protein extracted at low ionic strength from (Nikkilä, O. E. & Linko, R. R.) 242
Fluoride, effect of on synthesis of citric acid in fluoroacetate-blocked homogenates (Terner, C.) 95
Folic acid-deficient rats, biosynthesis of glycine and serine in (Arnstein, H. R. V.) vii
Formaldehyde, estimation of by Schryver's method (Dowse, C. M. & Saunders, J. A.) xxi
Fungi, wood-rotting, biochemistry of (Birkinshaw, J. H. & Chaplen, P.) 255

Gadus callarias see Codling
Gelatin and collagen monolayers and silicic acid, interaction of (Holt, P. F. & Clark, S. G.) xxx
Germination of seed embryos, biosynthesis of nicotinamide during (Klatzkin, C.) viii
γ-Globulins, antiserum, labelled with ^{131}I and ^{35}S-containing di-2-chloroethyl sulphone (Francis, G. E., Mulligan, W. & Wormall, A.) 363
Globulins, serum, incorporation of labelled amino acids into *in vivo* (Humphrey, J. H. & McFarlane, A. S.) xi
Glucose, fermentation of by *Aspergillus terreus* (Larsen, H. & Eimhjellen, K. E.) 135
Glucose-6-phosphatase, intracellular distribution of in liver (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Glucose 1-phosphate, hydrolysis of by silkworm-blood phosphatase (Faulkner, P.) 590
Glucoside conjugation in insects (Smith, J. N.) 436
Glucuronide synthesis, ester, and uridine-diphosphate-glucuronic acid (Dutton, G. J.) xix
Glutamic acid fermentation by *Clostridium tetanomorphum*, pathway of (Fry, B. A.) vi
Glutathione in blood and tissues, determination of (Bhattacharya, S. K., Robson, J. S. & Stewart, C. P.) 696
Glutathione, oxidation of by lipoxidase enzyme from pea seeds (Mapson, L. W. & Moustafa, E. M.) 71
Glutathione, oxidized, kinetics of reactions of with sodium sulphite (Cecil, R. & McPhee, J. R.) 496
Glutathione, synthesis of by normal and X-irradiated lens (Daisley, K. W.) xl

Glycerophospholipids, chromatographic separation of (Lea, C. H., Rhodes, D. N. & Stoll, R. D.) 353
Glycine and serine, biosynthesis of in normal and folic acid-deficient rats (Arnstein, H. R. V.) vii
Glycine carbon, incorporation of into β-carotene in *Phycomyces blakesleeanus* (Mackinney, G., Chichester, C. O. & Nakayama, T.) xxxvii
Glycine metabolism in rabbit, quantitative aspects of (Henriques, O. B., Henriques, S. B. & Neuberger, A.) 409
Granulomata produced by adjuvant, antibody formation in (Askonas, B. A. & Humphrey, J. H.) x

Haemoglobin, human, application to of theory of boundary spreading in a rapidly dissociating system (Field, E. O. & Ogston, A. G.) 661
Haemoglobin, human, dissociation of at low pH (Field, E. O. & O'Brien, J. R. P.) 656
Haemoglobins in ruminants, occurrence of electrophoretically distinct (Harris, H. & Warren, F. L.) xxix
Haemolysates of red cells of individuals with sickle cell trait, electrophoretic analysis of (Shooter, E. M. & Skinner, E. R.) xxviii
Haemoproteins, manometric method for study of peroxidatic reactions of (Keilin, D. & Hartree, E. F.) 310
Heparin injection, effect of on alimentary lipaemia and plasma esterases (Myers, D. K., Schotte, A. & Mendel, B.) 481
Hexose-1-phosphatase in silkworm blood (Faulkner, P.) 590
Holotrichs from bovine rumen, culture and physiology of (Gutierrez, J.) 516
Homogenates, fluoroacetate-blocked, effect of *p*-nitrophenol and fluoride on synthesis of citric acid in (Terner, C.) 95
Homogenates, mammary gland, effect of *p*-nitrophenol on synthesis and oxidation of citric acid by (Terner, C.) 88
Hyaluronidase, liberation of by *Staphylococcus aureus* (Rogers, H. J. & Spensley, P. C.) 635
Hydrides, metal, reduction of esters of simple peptides by (Bailey, J. Leggett) 170
17-Hydroxy-20-oxosteroids, urinary, unsubstituted at $C_{(21)}$, determination and identification of (Appleby, J. I. & Norymberski, J. K.) 460
17-Hydroxycorticosteroids, determination of (Appleby, J. I., Gibson, G., Norymberski, J. K. & Stubbs, R. D.) 453
6-Hydroxynicotinic acid as intermediate in oxidation of nicotinic acid by *Pseudomonas fluorescens* (Hughes, D. E.) 303
Hydroxyquinolines, metabolism of in rabbit (Smith, J. N. & Williams, R. T.) 284
Hypertensin, purification of (Peart, W. S.) vi
Hypoglycin A and B, two biologically active polypeptides from *Blighia sapida* (Hassall, C. H. & Reyle, K.) 334

Immunochemistry, studies in (Davies, D. A. L., Morgan, W. T. J. & Record, B. R.) 290; (Gibbons, R. A., Morgan, W. T. J. & Gibbons, M.) 428
Immunological investigations, use of radioactive isotopes in (Francis, G. E., Mulligan, W. & Wormall, A.) 118, 363, 370
Insecticides, organophosphorus, comparative enzymology of insect acetylesterases in relation to poisoning by (Casida, J. E.) 487
Insulin, disulphide bonds of (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Insulin, ox, chemical structure of (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Insulins, pig and sheep, chemical structure of (Brown, H., Sanger, F. & Kitai, R.) 556
Intestinal mucosa of calf, properties of alkaline phosphatase of (Morton, R. K.) 573
Intracellular distribution patterns of enzymes in rat-liver tissue (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Iodine, labelled proteins and protein antigens containing (Francis, G. E., Mulligan, W. & Wormall, A.) 118
Ionophoresis, filter-paper, at high voltage (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Ionophoresis of human serum proteins, borate buffer as medium for (Abdel-Wahab, E. M., Adjutantis, G. & Laurence, D. J. R.) xiii
Ionophoresis, paper, fractionation of phosphates by (Wade, H. E. & Morgan, D. M.) 264
Ionophoresis, two-dimensional filter-paper, of peptides of cystine (Ryle, A. P., Sanger, F., Smith, L. F. & Kitai, R.) 541
Isoleucine–threonine relationship in *Bacillus subtilis* (Sewell, C. E. & King, H. K.) xxi
Isomaltose and higher homologues, synthesis of by transglucosidase of *Penicillium chrysogenum* Q-176 (Saroja, K., Venkataraman, R. & Giri, K. V.) 399
Isotopes, radioactive, use of in immunological investigations (Francis, G. E., Mulligan, W. & Wormall, A.) 118, 363, 370
Itaconic acid formation, mechanism of by *Aspergillus terreus* (Eimhjellen, K. E. & Larsen, H.) 139; (Larsen, H. & Eimhjellen, K. E.) 135

Junipal *see* 5-(α-Propynyl)-2-formylthiophen

2-Keto-D-gluconic acid, formation of arabinose, ribulose and tartronic acid from (Hall, A. N., Kulka, D. & Walker, T. K.) 271
Kidney cortex suspensions, fluoroacetate-blocked, synthesis of citric acid in (Terner, C.) 95
Kidneys, unsaponifiable fractions from (Cunningham, N. F., Lowe, J. S., Mervyn, L., Morton, R. A. & Vernon, J.) xviii

Lactic acid, transitory rapid production of in electrically excited cerebral tissues (McIlwain, H.) xxxi
Leaf ribonuclease, comparison of with pancreatic ribonuclease (Holden, M. & Pirie, N. W.) 53
Lecithins, egg, fatty acid/phosphorus ratios in (Lea, C. H., Rhodes, D. N. & Stoll, R. D.) 353
Lens, normal and X-irradiated, synthesis of glutathione by (Daisley, K. W.) xl
Leucocyanidins in cacao bean (Forsyth, W. G. C.) 108
Light scattering, measurement of molecular weight and radius of gyration of deoxyribonucleic acid by (Alexander, P. & Stacey, K. A.) 194
Limb atrophy of rat, metabolism of sulphated polysaccharides in (Slack, H. G. B.) 112
Lipaemia, alimentary, effect of heparin injection on (Myers, D. K., Schotte, A. & Mendel, B.) 481
Lipase and clearing factor (Overbeek, G. A. & Vies, J. van der) 665
Lipase in rat and dog plasma (Overbeek, G. A. & Vies, J. van der) 665
Lipase, pancreatic, effect of surface-active agents on (Wills, E. D.) 529
Lipid-hydrolysing enzymes, studies on (Myers, D. K., Schotte, A. & Mendel, B.) 481
Lipopolysaccharide extracted from antigenic complex of *Shigella dysenteriae* (Davies, D. A. L., Morgan, W. T. J. & Record, B. R.) 290
Lipoxidase enzyme from pea seeds, oxidation of glutathione by (Mapson, L. W. & Moustafa, E. M.) 71
Liver mitochondria of rat, uncoupling of oxidative phosphorylation by thyroxine, triiodothyronine and related substances in (Klemperer, H. G.) 122

Liver mitochondria of rat, uptake of thyroxine and triiodothyronine by (Klemperer, H. G.) 128
Liver oils, minor constituents of (Cain, J. C. & Morton, R. A.) 274
Liver tissue, rat, intracellular distribution patterns of enzymes in (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Livers, unsaponifiable fractions from (Cunningham, N. F., Lowe, J. S., Mervyn, L., Morton, R. A. & Vernon, J.) xviii
Lobster, non-protein constituents of tissues of (Kermack, W. O., Lees, H. & Wood, J. D.) 424
Lycopene, metabolism of in rat (Painter, R. H. & Glover, J.) xvi
Lysozyme, amino acid sequence in (Thompson, A. R.) 507

Magnesium, serum, colorimetric method for estimation of (Smith, A. J.) 522
Mammary gland, coenzyme A dependent reactions in soluble enzyme system of (Tietz, A. & Popják, G.) 155
Mammary gland homogenates, effect of *p*-nitrophenol on synthesis and oxidation of citric acid by (Terner, C.) 88
Mammary gland, metabolism of citric acid in (Terner, C.) 88, 95
Mammary gland of rat, synthesis of fatty acids from acetate by soluble enzyme system from (Popják, G. & Tietz, A.) 147
Mammary gland slices *in vitro*, effects of adrenal corticoids on fatty acid synthesis in (McNaught, M. L., Glascock, R. F., Balmain, J. H. & Folley, S. J.) 102
Manometric procedure for study of enzymic transmethylation reactions involving thetins (Maw, G. A.) xxxii
Mercapturic acids formation in metabolism of 3:4-dichloronitrobenzene in rabbit (Bray, H. G., James, S. P. & Thorpe, W. V.) xxiii
Mercapturic acids formed in rabbits from trichlorobenzenes, structure of (Jondorf, W. R., Parke, D. V. & Williams, R. T.) vii
Metal hydrides, reduction of esters of simple peptides by (Bailey, J. Leggett) 170
6-Methylaminopurine, occurrence of in microbial deoxyribonucleic acids (Dunn, D. B. & Smith, J. D.) xvii
Metmyoglobin as catalyst of coupled peroxidatic reactions (Keilin, D. & Hartree, E. F.) 310
Metmyoglobin, possible structure for higher oxidation state of (George, P. & Irvine, D. H.) 596
Micro-organisms, biochemistry of (Breen, J., Dacre, J. C., Raistrick, H. & Smith, G.) 618
Milk of cow, properties of alkaline phosphatase of (Morton, R. K.) 573
Mitochondria, brain, inhibition of oxidative phosphorylation in by electrical currents, and effect of chelating agents (Abood, L. G. & Romanchek, L.) 233
Mitochondria, liver, preparation and partial purification of soluble choline dehydrogenase from (Ebisuzaki, K. & Williams, J. N. jun.) 644
Mitochondria, rat-liver, uncoupling of oxidative phosphorylation by thyroxine, triiodothyronine and related substances in (Klemperer, H. G.) 122
Mitochondria, rat-liver, uptake of thyroxine and triiodothyronine by (Klemperer, H. G.) 128
Molecular weights, separation of substances on basis of, using columns of starch and water (Lathe, G. H. & Ruthven, C. R. L.) xxxiv
Monosaccharides, estimation of by orcinol–sulphuric acid reaction (Brückner, J.) 200
Mucoids, blood-group; fractionation, properties and composition of (Gibbons, R. A., Morgan, W. T. J. & Gibbons, M.) 428
Mucoproteins, urinary, biological properties of (Anderson, A. J., Lockey, E. & Maclagan, N. F.) xli
Mucoproteins *see also* Ovomucoid
Muscle anserinase, skeletal, of codling, 1-methylhistidine and β-alanine liberation by (Jones, N. R.) 81
Muscle, fish skeletal, paper-electrophoretic analysis of protein extracted at low ionic strength from (Nikkilä, O. E. & Linko, R. R.) 242
Mustard gas sulphone groups, labelled proteins and protein antigens containing (Francis, G. E., Mulligan, W. & Wormall, A.) 118

2-Naphthylamine, metabolism of in rat tissue slices (Booth, J., Boyland, E. & Manson, D.) 62
2-Naphthylamine, metabolites of, produced by rats and rabbits (Boyland, E. & Manson, D.) ii
2-Naphthylamine, oxidation of by ascorbic acid–ferrous sulphate–oxygen system (Booth, J., Boyland, E. & Manson, D.) 62
2-Naphthylamine-*N*-glucoside, formation of (Booth, J., Boyland, E. & Manson, D.) 62
Neurospora crassa, oxidases of, in relation to their endogenous respiration (Boulter, D.) xxi
Nicotinamide, biosynthesis of by seed embryos during germination (Klatzkin, C.) viii
Nicotinamide, effect of on metabolism of progesterone (Taylor, W.) 380
Nicotinic acid, oxidation of by *Pseudomonas fluorescens*, 6-hydroxynicotinic acid as intermediate in (Hughes, D. E.) 303
Nicotinic acids, halogenated, oxidation of by *Pseudomonas fluorescens* (Hughes, D. E.) 303
p-Nitrophenol, effect of on synthesis and oxidation of citric acid by mammary gland homogenates (Terner, C.) 88
p-Nitrophenol, effect of on synthesis of citric acid in fluoroacetate-blocked homogenates (Terner, C.) 95
Nuclei, liver, medium for (Stainer, J. E. & Philpot, J. St L.) xli
Nucleic acid, preparation of from yeast, tobacco leaves and tobacco mosaic virus (Holden, M. & Pirie, N. W.) 46
Nucleic acids of different rabbit tissues, incorporation of radioactive phosphorus into (Smellie, R. M. S., Humphrey, G. F., Kay, E. R. M. & Davidson, J. N.) 177
Nucleotide exchange reactions catalysed by ribonuclease and spleen phosphodiesterase (Heppel, , L. A. & Whitfeld, P. R.) 1; (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 8

Ochromonas malhamensis, vitamin B_{12} and methyl synthesis in (Johnson, B. Connor, Holdsworth, E. S., Ford, J. E., Porter, J. W. G. & Kon, S. K.) xxxix
Octanoic acid, inhibition of acetoacetate synthesis by (Avigan, J., Quastel, J. H. & Scholefield, P. G.) 329
Oestrogens in human urine, determination of (Brown, J. B.) 185
Oils, liver, minor constituents of (Cain, J. C. & Morton, R. A.) 274
Oligosaccharides, synthesis of by transglucosidase of *Penicillium chrysogenum* Q-176 (Saroja, K., Venkataraman, R. & Giri, K. V.) 399
Orcinol–sulphuric acid reaction, estimation of monosaccharides by (Brücker, J.) 200
Organophosphorus compounds, return of cholinesterase activity in rat after inhibition by (Davison, A. N.) 339
Organophosphorus insecticides, comparative enzymology of insect acetylesterases in relation to poisoning by (Casida, J. E.) 487
Ornithine in urea synthesis (Bronk, J. R. & Fisher, R. B.) xxix
Ovarian cyst fluids, isolation of blood-group active mucoids from (Gibbons, R. A., Morgan, W. T. J. & Gibbons, M.) 428
Ovomucoid, use of sulphonated cation-exchange resins for hydrolysis of (Dixon, A. St J.) 165

Oxidases, amine, structural requirements for inhibition of (Zeller, E. A., Barsky, J., Fouts, J. R. & Lazanas, J. C.) v

Oxidases of *Polystictus versicolor* and *Neurospora crassa* in relation to their endogenous respiration (Boulter, D.) xxi

Pancreatic ribonuclease, comparison of with leaf ribonuclease (Holden, M. & Pirie, N. W.) 53

Panose and higher homologues, synthesis of by transglucosidase of *Penicillium chrysogenum* Q-176 (Saroja, K., Venkataraman, R. & Giri, K. V.) 399

Paper electrophoresis as quantitative method of serum proteins (Jencks, W. P., Jetton, M. R. & Durrum, E. L.) 205

Paper ionophoresis and chromatography, fractionation of phosphates by (Wade, H. E. & Morgan, D. M.) 264

Pea seeds, oxidation of glutathione by lipoxidase enzyme from (Mapson, L. W. & Moustafa, E. M.) 71

Penicillin biosynthesis, utilization of valine for (Arnstein, H. R. V. & Clubb, M. E.) xxxiv

Penicillium chrysogenum Q-176, transglucosidation in (Saroja, K., Venkataraman, R. & Giri, K. V.) 399

Penicillium rugulosum Thom; rugulosin, a colouring matter of (Breen, J., Dacre, J. C., Raistrick, H. & Smith, G.) 618

Pentosan, ruminal fermentation of (Howard, B. H.) i

Peptide esters, reduction of by metal hydrides (Bailey, J. Leggett) 170

Peptides, displacement chromatography of from partial hydrolysate on ion-exchange resins (Thompson, A. R.) 507

Peptides from carboxyl end, systematic degradation of (Bailey, J. Leggett) 173

Peroxidase as catalyst of coupled peroxidatic reactions (Keilin, D. & Hartree, E. F.) 310

pH, effect of on fermentation of glucose by *Aspergillus terreus* (Larsen, H. & Eimhjellen, K. E.) 135

Phenolic acid excretion, urinary, in phenylketonuria (Boscott, R. J. & Kirman, B. H.) iv

Phenols, conjugation of with sulphuric acid and glucose in insects (Smith, J. N.) 436

Phenols, detoxication of in insects (Smith, J. N.) 436

Phenylketonuria, urinary phenolic acid excretion in (Boscott, R. J. & Kirman, B. H.) iv

Phosphatase, alkaline, of cow's milk and calf intestinal mucosa, properties of (Morton, R. K.) 573

Phosphatases of plants (Holden, M. & Pirie, N. W.) 39

Phosphate determinations, inorganic, by method of Lowry & Lopez, interference of sulphide with, and its elimination by addition of copper ions (Peel, J. L., Fox, M. & Elsden, S. R.) xxxiii

Phosphate esters, use of an *n*-propanol–water solvent containing an acetic acid–sodium acetate buffer for chromatography of (Caldwell, P. C.) xii

Phosphates, fractionation of by paper ionophoresis and chromatography (Wade, H. E. & Morgan, D. M.) 264

Phosphodiesterase, spleen, catalysis of nucleotide exchange reactions by (Heppel, L. A. & Whitfeld, P. R.) 1

Phosphodiesterase, spleen, role of in polynucleotide synthesis (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 8

Phosphodiesterases, action of on ribonucleotides (Whitfeld, P. R., Heppel, L. A. & Markham, R.) 15

Phosphokinases, adenosinetriphosphate-guanidyl, in Annelid worms (Hobson, G. E.) viii

Phospholipids (Lea, C. H., Rhodes, D. N. & Stoll, R. D.) 353

Phosphorus compounds, return of cholinesterase activity in rat after inhibition by (Davison, A. N.) 399

Phosphorus insecticides, organo, comparative enzymology of insect acetylesterases in relation to poisoning by (Casida, J. E.) 487

Phosphorus, radioactive, effect of electrical pulses on distribution of in cerebral slices (Heald, P. J.) xxxi

Phosphorus, radioactive, incorporation of into nucleic acids of different rabbit tissues (Smellie, R. M. S., Humphrey, G. F., Kay, E. R. M. & Davidson, J. N.) 177

Phosphorylation, oxidative, in brain mitochondria, inhibition of by electrical currents, and effect of chelating agents (Abood, L. G. & Romanchek, L.) 233

Phosphorylation, oxidative, in rat-liver mitochondria, uncoupling of by thyroxine, triiodothyronine and related substances (Klemperer, H. G.) 122

Phosphorylcholine in rat tissues (Dawson, R. M. C.) 325

Photo-activation as factor in cephalin cholesterol reaction (Bassir, O. & Hall, J.) xx

Phycomyces blakesleeanus, incorporation of glycine carbon into β-carotene in (Mackinney, G., Chichester, C. O. & Nakayama, T.) xxxvii

Phycomyces blakesleeanus, role of carboxylic acids in biosynthesis of β-carotene by (Friend, J., Goodwin, T. W. & Griffiths, L. A.) 649

Pig, carbohydrate metabolism in *Ascaris lumbricoides* from (Rathbone, L.) xi

Pike, fractionation of muscle proteins of (Nikkilä, O. E. & Linko, R. R.) 242

Pituitary hormone, anterior, effects of deprivation of on partition of vitamin A in blood and milk of cow (Chanda, R., Clapham, H. M. & Owen, E. C.) 391

Plant, preparation of ribonucleic acid from (Holden, M. & Pirie, N. W.) 46

Plant ribonuclease, comparison with pancreatic ribonuclease (Holden, M. & Pirie, N. W.) 53

Plant ribonuclease, partial purification of (Holden, M. & Pirie, N. W.) 39

Plasma esterases, effect of heparin injection on (Myers, D. K., Schotte, A. & Mendel, B.) 481

Plasma, human, effect of a fat meal on concentration of free fatty acids in (Robinson, D. S., Harris, P. M., Poole, J. C. F. & Jeffries, G. H.) xxxvii

Plasma proteins, quantitative aspects of evaluation of, following paper electrophoresis (Abdel-Wahab, E. M. & Laurence, D. J. R.) xxxv

Polycyclic compounds, metabolism of (Booth, J., Boyland, E. & Manson, D.) 62

Polynucleotide biosynthesis (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 8

Polypeptides (hypoglycin A and B), isolation of from *Blighia sapida* (Hassall, C. H. & Reyle, K.) 334

Polyphenols in cacao, separation and estimation of on paper chromatograms (Forsyth, W. G. C.) 108

Polysaccharide of the dominant 'O' somatic antigen of *Shigella dysenteriae* (Davies, D. A. L., Morgan, W. T. J. & Record, B. R.) 290

Polysaccharides, sulphated, metabolism of in limb atrophy of rat (Slack, H. G. B.) 112

Polystictus versicolor, oxidases of, in relation to their endogenous respiration (Boulter, D.) xxi

Porphyrins in bones, teeth and shells, micro-estimation of (With, T. K.) 703

Potassium loss from brain induced by cholinesterase inhibitors (Strickland, K. P. & Thompson, R. H. S.) 468

Potassium/sodium ratio of saliva in man (Pawan, G. L. S.) xii

Potato acid phosphatase (Naganna, B., Raman, A., Venugopal, B. & Sripathi, C. E.) 215

Potato pyrophosphatases (Naganna, B., Raman, A., Venugopal, B. & Sripathi, C. E.) 215

Progesterone, metabolism of by animal tissue *in vitro* (Taylor, W.) 380

Proline, *N*-terminal, spectrophotometric determination of (Phillips, D. M. P.) 403
Propionate, production of succinate from by carbon dioxide fixation in sheep rumen epithelial tissue (Pennington, R. J. & Sutherland, T. M.) xxxvii
5-(α-Propynyl)-2-formylthiophen (junipal), isolation of from *Daedalea juniperina* Murr., and characterization of (Birkinshaw, J. H. & Chaplen, P.) 255
Protamine of *Oncorhynchus keta*, *N*-terminal residues of (Phillips, D. M. P.) 403
Protein extracted at low ionic strength from fish skeletal muscle, paper-electrophoretic analysis of (Nikkilä, O. E. & Linko, R. R.) 242
Protein labelled with ^{14}C or ^{35}S, simple technique for counting milligram samples of (Garrow, J. & Piper, E. A.) 527
Proteins, labelled, containing both iodine and mustard gas sulphone groups (Francis, G. E., Mulligan, W. & Wormall, A.) 118
Proteins, serum, mammalian, fractionation of with ether (Mackay, M. E.) 475
Proteins, serum, paper electrophoresis as quantitative method for (Jencks, W. P., Jetton, M. R. & Durrum, E. L.) 205
Protocatechuic acid, microbial oxidation of (Dagley, S. & Patel, M. D.) xxxv
Provitamin D in animal tissues (Festenstein, G. N. & Morton, R. A.) 22
Pseudomonas fluorescens, 6-hydroxynicotinic acid as intermediate in oxidation of nicotinic acid by (Hughes, D. E.) 303
Pyrophosphatase, alkaline, in vegetable tissues (Naganna, B., Venugopal, B. & Sripathi, C. E.) 224
Pyrophosphatases, potato (Naganna, B., Raman, A., Venugopal, B. & Sripathi, C. E.) 215
Python molurus and *Python stinotis*, component fatty acids of oils of (Karkhanis, Y. D. & Magar, N. G.) 565

Quebracho tannin extract, minor constituents of (Kirby, K. S. & White, T.) 582
Quinoline, metabolism of in rabbit (Smith, J. N. & Williams, R. T.) 284

Rabbit, quantitative aspects of glycine metabolism in (Henriques, O. B., Henriques, S. B. & Neuberger, A.) 409
Rat tissues, phosphorylcholine in (Dawson, R. M. C.) 325
Resins, sulphonated cation-exchange, use of for hydrolysis of ovomucoid (Dixon, A. St J.) 165
Respiration, endogeneous, oxidases of *Polystictus versicolor* and *Neurospora crassa* in relation to (Boulter, D.) xxi
Riboflavin antagonist, effect of on liver-catalase activity of mice (Adams, D. H.) 568
Ribomononucleotide esters, synthesis of by ribonuclease and spleen phosphodiesterase (Heppel, L. A. & Whitfeld, P. R.) 1
Ribonuclease, catalysis of nucleotide exchange reactions by (Heppel, L. A. & Whitfeld, P. R.) 1
Ribonuclease, leaf and pancreatic, comparison of (Holden, M. & Pirie, N. W.) 53
Ribonuclease, leaf, partial purification of (Holden, M. & Pirie, N. W.) 39
Ribonuclease, role of in polynucleotide synthesis (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 8
Ribonucleases, effects of on various ribonucleic acids (Holden, M. & Pirie, N. W.) 53
Ribonucleases, inhibition of by metallic ions (Holden, M. & Pirie, N. W.) 53
Ribonucleic acid, precipitation of by sodium chloride (Holden, M. & Pirie, N. W.) 46
Ribonucleic acid, preparation of from yeast, tobacco leaves and tobacco mosaic virus (Holden, M. & Pirie, N. W.) 46
Ribonucleic acids, nuclear and cytoplasmic, incorporation of radioactive phosphorus into (Smellie, R. M. S., Humphrey, G. F., Kay, E. R. M. & Davidson, J. N.) 177
Ribonucleoside-2′:3′ phosphates, enzymic hydrolysis of (Whitfeld, P. R., Heppel, L. A. & Markham, R.) 15
Ribonucleotides, mechanism of enzymic hydrolysis of (Whitfeld, P. R., Heppel, L. A. & Markham, R.) 15
Ribulose, formation of from 2-keto-D-gluconic acid (Hall, A. N., Kulka, D. & Walker, T. K.) 271
Rugulosin, a yellow colouring matter isolated from *Penicillium rugulosum* and *Penicillium wortmanni* (Breen, J., Dacre, J. C., Raistrick, H. & Smith, G.) 618
Rumen, bovine, culture and physiology of holotrichs from (Gutierrez, J.) 516
Ruminants, occurrence of electrophoretically distinct haemoglobins in (Harris, H. & Warren, F. L.) xxix

Saliva, sodium/potassium ratio of in man (Pawan, G. L. S.) xii
Salmine, *N*-terminal groups of (Phillips, D. M. P.) 403
Schryver's method for estimation of formaldehyde (Dowse, C. M. & Saunders, J. A.) xxi
Sedimentation, application to of theory of boundary spreading in a rapidly dissociating system (Field, E. O. & Ogston, A. G.) 661
Senecio alkaloids, blood changes in rats treated with (Schoental, R.) i
Serine and glycine, biosynthesis of in normal and folic acid-deficient rats (Arnstein, H. R. V.) vii
L-Serine, fermentation of by a Gram-negative coccus (Lewis, D. & Elsden, S. R.) 683
L-Serine, serratamic acid a derivative of, produced by organisms of *Serratia* group (Cartwright, N. J.) 238
Serological precipitates, solubility of in saline (Francis, G. E., Mulligan, W. & Wormall, A.) 370
Serratamic acid, a derivative of L-serine produced by organisms of *Serratia* group (Cartwright, N. J.) 238
Serratia group organisms, serratamic acid a derivative of L-serine produced by (Cartwright, N. J.) 238
Serum globulins, incorporation of labelled amino acids into *in vivo* (Humphrey, J. H. & McFarlane, A. S.) xi
Serum magnesium, colorimetric method for estimation of (Smith, A. J.) 522
Serum proteins, human, borate buffer as medium for ionophoresis of (Abdel-Wahab, E. M., Adjutantis, G. & Laurence, D. J. R.) xiii
Serum proteins, mammalian, fractionation of with ether (Mackay, M. E.) 475
Serum proteins, paper electrophoresis as quantitative method for (Jencks, W. P., Jetton, M. R. & Durrum, E. L.) 205
Sewage, vitamin B_{12} in (Whitmarsh, J. M., Albans, J. W. & Wright, R. D.) xxviii
Sheep rumen epithelial tissue, production of succinate from propionate by carbon dioxide fixation in (Pennington, R. J. & Sutherland, T. M.) xxxvii
Shells, micro-estimation of porphyrins in (With, T. K.) 703
Shigella dysenteriae, specific polysaccharide of dominant 'O' somatic antigen of (Davies, D. A. L., Morgan, W. T. J. & Record, B. R.) 290
Sickle cell trait, electrophoretic analysis of haemolysates of red cells of individuals with (Shooter, E. M. & Skinner, E. R.) xxviii
Silicic acid, collagen and gelatin monolayers; interaction of (Holt, P. F. & Clark, S. G.) xxx
Silkworm blood, hexose-1-phosphatase in (Faulkner, P.) 590
Skyrin, isolation of from *Penicillium rugulosum* and *Penicillium wortmanni* (Breen, J., Dacre, J. C., Raistrick, H. & Smith, G.) 618
Snake, oils, Indian, component fatty acids of (Karkhanis, Y. D. & Magar, N. G.) 565

Sodium dithionite, reduction of diphosphopyridine nucleotide by (Swallow, A. J.) 443
Sodium sulphite, kinetic study of reactions of disulphides with (Cecil, R. & McPhee, J. R.) 496
Sodium/potassium ratio of saliva in man (Pawan, G. L. S.) xii
Spleen phosphodiesterase, nucleotide exchange reactions catalysed by (Heppel, L. A. & Whitfeld, P. R.) 1; (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 8
Staphylococcus aureus, selective inhibition of liberation of extracellular enzymes and protein in cultures of (Rogers, H. J. & Spensley, P. C.) 635
Steroid metabolism in cockerels (Kantiengar, N. L., Lowe, J. S., Morton, R. A. & Pitt, G. A. J.) 34
Steroid metabolism in rats (Kantiengar, N. L. & Morton, R. A.) 28, 30
Steroids in human atherosclerotic aortas (Kantiengar, N. L. & Morton, R. A.) 25
Succinate, production of from propionate by carbon dioxide fixation in sheep rumen epithelial tissue (Pennington, R. J. & Sutherland, T. M.) xxxvii
Succinic oxidase, inhibition of by antimycin A (Thorn, M. B.) xxxvi
Sugars, estimation and characterization of with orcinol–sulphuric acid (Brückner, J.) 200
Sulphatases, studies on (Dodgson, K. S., Rose, F. A. & Spencer, B.) 346
Sulphate, ethereal, conjugation of in insects (Smith, J. N.) 436
Sulphide interference with inorganic phosphate determinations by method of Lowry & Lopez, and its elimination by addition of copper ions (Peel, J. L., Fox, M. & Elsden, S. R.) xxxiii
Sulphur, radioactive, simple technique for counting milligram samples of protein labelled with (Garrow, J. & Piper, E. A.) 527

Tannin extract, quebracho, minor constituents of (Kirby, K. S. & White, T.) 582
Tartronic acid, formation of from 2-keto-D-gluconic acid (Hall, A. N., Kulka, D. & Walker, T. K.) 271
Teeth, micro-estimation of porphyrins in (With, T. K.) 703
Testosterone, effect of on liver-catalase activity of mice (Adams, D. H.) 568
Thiols, inhibition and catalysis of disulphide interchange reactions by (Ryle, A. P. & Sanger, F.) 535
L-Threonine, fermentation of by a Gram-negative coccus (Lewis, D. & Elsden, S. R.) 683
Threonine–isoleucine relationship in *Bacillus subtilis* (Sewell, C. E. & King, H. K.) xxi
Thyroxine, uncoupling of oxidative phosphorylation in rat-liver mitochondria by (Klemperer, H. G.) 122
Thyroxine, uptake of by rat-liver mitochondria (Klemperer, H. G.) 128
Tissue, connective, observations on non-collagen constituents of (Bird, R. & Consden, R.) ix
Tissue fractionation studies (Duve, C. de, Pressman, B. C., Gianetto, R., Wattiaux, R. & Appelmans, F.) 604
Tissue swelling *in vitro*, mechanism of (Leaf, A.) xl
Tobacco leaves, preparation of ribonucleic acid from (Holden, M. & Pirie, N. W.) 46
Tobacco mosaic virus, preparation of ribonucleic acid from (Holden, M. & Pirie, N. W.) 46
Transaminase activity in *Clostridium welchii* (Hicks, R. M.) iii
Transglucosidation in *Penicillium chrysogenum* Q-176 (Saroja, K., Venkataraman, R. & Giri, K. V.) 399
Transmethylation reactions, enzymic, involving thetins, manometric procedure for study of (Maw, G. A.) xxxii
Tributyrinase of post-heparin plasma (Myers, D. K., Schotte, A. & Mendel, B.) 481
Trichlorobenzenes, structure of mercapturic acids formed in rabbits from (Jondorf, W. R., Parke, D. V. & Williams, R. T.) vii
Triiodothyronine, uncoupling of oxidative phosphorylation in rat-liver mitochondria by (Klemperer, H. G.) 122
Triiodothyronine, uptake of by rat-liver mitochondria (Klemperer, H. G.) 128
Triphosphopyridine nucleotide, structure of (Heppel, L. A., Whitfeld, P. R. & Markham, R.) 19
Tryptophan metabolism in rat (Dalgliesh, C. E.) xxiii
Tryptophan metabolites, estimation of in urine of patients with cancer of bladder (Boyland, E. & Williams, D. C.) v

Urea synthesis, ornithine and citrulline in (Bronk, J. R. & Fisher, R. B.) xxix
Uridine-diphosphate-glucuronic acid and ester glucuronide synthesis (Dutton, G. J.) xix
Urine, amino acids and other ampholytes of (Westall, R. G.) 247
Urine, human, determination of oestriol, oestrone and oestradiol in (Brown, J. B.) 185
Urine of patients with cancer of bladder, estimation of tryptophan metabolites in (Boyland, E. & Williams, D. C.) v

Valine, utilization of for penicillin biosynthesis (Arnstein, H. R. V. & Clubb, M. E.) xxxiv
Vegetable tissues, alkaline pyrophosphatase in (Naganna, B., Venugopal, B. & Sripathi, C. E.) 224
Vitamin A, liver store of, reduction in by cholesterol feeding (Kantiengar, N. L. & Morton, R. A.) 28
Vitamin A partition in blood and milk of cow, effects of deprivation of carotene and anterior pituitary hormone on (Chanda, R., Clapham, H. M. & Owen, E. C.) 391
Vitamin A-deficiency syndrome in rat (Heaton, F. W., Lowe, J. S. & Morton, R. A.) xviii
Vitamin B_{12} and methyl synthesis in *Ochromonas malhamensis* (Johnson, B. Connor, Holdsworth, E. S., Ford, J. E., Porter, J. W. G. & Kon, S. K.) xxxix
Vitamin B_{12} in sewage (Whitmarsh, J. M., Albans, J. W. & Wright, R. D.) xxviii
Vitamin D, steroid metabolism and (Festenstein, G. N. & Morton, R. A.) 22

Wood-rotting fungi, biochemistry of (Birkinshaw, J. H. & Chaplen, P.) 255
Wool, reactivity of cystine linkages in towards reducing agents (Farnworth, A. J.) 626

Yeast, preparation of ribonucleic acid from (Holden, M. & Pirie, N. W.) 46

Zinc, radioactive, influence of ethylenediaminetetra-acetic acid on excretion of by rat (Millar, J. M., Fischer, M. I., Mawson, C. A. & Elcoate, P. V.) xxxviii
